

COVID-19 Update

Dear Clients,

As restrictions and regulations begin to lessen in regards to COVID-19, we want to express how much we appreciate your patience as we attempt to navigate the situation. The health and safety of our staff, clients and patients is of course our top priority, so it's important that we continue to comply with social distancing protocols and minimize contact between clients and clients and staff in our office. Therefore, we will continue our curbside service for the foreseeable future.

We realize that the weather is getting warmer and sitting in your car may be uncomfortable at times, but we do hope you understand the difficulty we face as we continue to serve you and your pets during this uncertain time. We will do our best to return your pet to you as quickly as possible depending upon the reason for the visit.

In addition, we offer drop off service, or are happy to keep your pet at our office should you need to return home or run an errand while you're waiting.

And finally, we will be closing on Sunday's for the foreseeable future.

We thank you for your continued support and understanding.

The Doctors and Staff of Terra Vista Animal Hospital
